Introduction

The AssetTracer UT Series Smart Locker stores, tracks and manages access to weapons, equipment, machinery, electronic devices, and other assets, in a more general utility locker. The UT Series Smart Locker offers all the benefits of our RTNHub smart storage and management system.

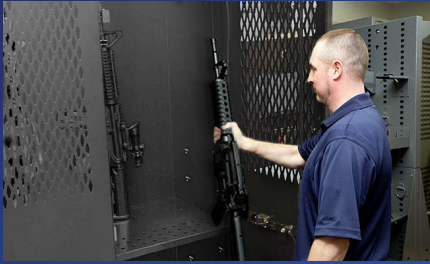

- Durable, all-welded construction
- Maximum security electronic locking system
- Optional RFID sensors for contents surveillance
- Controlled with RTNHub management software
- Integrated with most major access control systems
- Choice of ventilation styles

Streamline your operations with smart storage solutions

-  Control access to your most important assets over their entire lifecycle.
-  Ensure compliance with robust reporting tools and automatic logging.
-  Ensure your employees have the right equipment in working order when needed.
-  Extend investment by integrating asset tracking with other core business systems.
-  Accelerate workflows and reduce administrative overheads.
-  Avoid hefty replacement costs for lost equipment and increase operational efficiency.
-  Implement scalable smart storage solutions that can grow with your business.
-  Store and manage specialized equipment in a wide variety of industrial settings

Use Cases

Weapons Storage and Management

Secure and control access to weapons in a variety of law enforcement and military settings.

Casino Repairs and Equipment Storage

Keep repair tools and components organized and protected, while helping your staff be more productive.

Tool Crib Applications

A secure and organized storage solution for CNC tools and perishable tools such as drills, taps, reamers, and broaches.

Evidence Chain-of-Custody Management

Manage and track chain-of-custody for large or oversized evidence collected from crime scenes.

General Purpose, Office Supply or PPE Management

Store and manage office supplies or PPE without the need for keys or the need for a single custodian.

Shops and Departments

Secure storage and management for storerooms, heavy duty/maintenance shops, welding shops, electrical and instrumental shop, medical departments, and lock and key departments.

Our sleek, industrial-grade lockers are engineered to take a beating, giving technicians quick and easy access to tools, parts, and supplies. Organized storage and workspace solutions help improve productivity and are durable for all your hydro/electric power storage and workspace needs.

Available in 4 Standard Sizes

AssetTracer UT Series Smart Lockers are constructed with all-welded joints, with 13 gauge steel sides and 18 gauge cold rolled sheet steel backs and are available in four standard sizes.

A 42" (W) X 24" (D) X 78" (H)

B 36" (W) X 24" (D) X 78" (H)

C 42" (W) X 24" (D) X 96" (H)

D 42" (W) X 42" (D) X 96" (H)

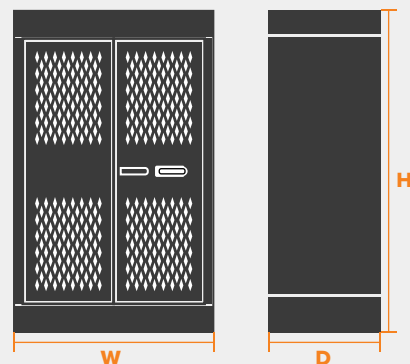

**Custom sizes are also available.*
